ES<sup>2</sup>, a Structural and MEP consulting firm with offices in multiple states, is seeking an individual who is interested in **Structural** analysis and design in our **Roseville, CA, Las Vegas, NV and Idaho Falls, ID** office locations. We specialize in providing engineering services for all types of residential and commercial building projects. In addition, we provide engineering services for off-site structures, i.e.: culverts, tunnels, channels, drop-boxes, etc. Our goal is to hire outstanding people from diverse backgrounds who share our core values and provide an environment for them to flourish.

## Job Description:

Oversee all levels of engineering as **Project Engineer** for Commercial building projects including the following:

- ✓ Correspond with all involved disciplines (i.e.: architects, engineers, clients, fabricators, contractors, building department officials, etc.).
- ✓ Coordinate and oversee the engineering plans development with clients, architects, CAD department, etc.
- ✓ Design appropriate structural systems in accordance with specific building code requirements and sound engineering principles.
- ✓ Develop complete sets of fully detailed engineering drawings, with clear and concise specifications.
- ✓ Participate in project meetings (i.e.: design development, value engineering, express plan-check, etc.), site visits, etc.
- ✓ Contribute to an amicable working environment with fellow colleagues, associates and employees to provide excellent customer service and meet project deadlines.

## Qualifications:

- ✓ Minimum 3-5 years experience with an emphasis in Structures
- ✓ M.S. Degree – Civil Engineering with an emphasis in Structures
- ✓ ACAD or Revit Structures Experience

## Company Benefits:

Health, Dental, Vision, Supplemental, Flex-Spending Medical Account, retirement benefits, disability insurance and competitive salary are all part of a complete compensation package.
